

EtG - PROFICIENCY TEST 2023

The Society of Hair Testing is ready to launch the 2023 Ethylglucuronide (EtG) Proficiency Tests for members of the SoHT. Two rounds of PT will be organized, the first in May/June and the second in October/November 2023. Your registration will be valid for both rounds. The registration fee for one year (one or two rounds) is fixed at 200 €; you cannot register for one round only. The samples of PT round 1 will be shipped in May and consist of authentic hair samples.

Participants are requested to analyse the samples following the standard procedures used routinely in their laboratories, without giving the test samples special treatment. Further instructions will be given with the sample delivery. Participants will receive a certificate attesting their participation.
